🪪 SUMMARY

Detail oriented Full Stack Developer with a strong focus on Frontend. 5 years of professional experiences as a business manager and IT recruiter. Looking to apply my cross-industry, customer-facing experience, and technical knowledge to build responsive and customer-centric websites and applications.

🧠 SKILLS

Backend *(Ruby On Rails, Active Record, SQL, Graphql, NodeJS)*

Frontend *(HTML, CSS/SCSS, Javascript ES6, React, React Native, Typescript, Next.js)*

Development & Management tools *(Jira, Confluence, Asana, Notion, Sentry, Visual Studio Code, Expo, Android Studio, XCode, Heroku, Netlify, Vercel, CircleCI)*

git / GitHub   **BPMN / UML**

Wordpress

🌐 LANGUAGES

- French (Native)
- English (Fluent)
- German (B1+)

🎻 INTERESTS

Music
Musical Training for 8 years in conservatory Music collective Nanji

Basketball & Football

Charity Projects
Funding projects for the association CRARN (Child's Right and Rehabilitation Network) in Nigeria

📂 RELEVANT PROJECTS

Soundmates & Studio BNB (2021)
Designed, implemented and shipped to production 2 websites aimed to people in the music industry. I used **Ruby on Rails**, **HTML**, **SCSS**, **Javascript** & **Active Records**.

La Pépite (2021) ↗
Created a static website for a restaurant in Paris called La Pépite using **Eleventy**, **Netlify**, **HTML**, **CSS** and **Javascript**

💼 CAREER

Junior Fullstack Developer
Alpakas GmbH ↗
02/2022 – present | Berlin
Alpakas is a sustainable groceries delivery service operating in Berlin and Munich. We offer regional and bio products to 1200 daily users, in a circular system without using any plastic packaging.

- Developed responsive web features & mobile application screens using React.js, Next.js and React Native (Product Details and Recently Ordered, Address flow during sign up, Deposits Refunds Overview..)
- Implemented reusable components for consistent UI/UX
- Used testing framework as Jest for unit and integration testing
- Optimized performance through code optimization & lazy loading
- Worked with version control systems such as Git and GitHub for collaborative development
- Collaborated with designers and backend developers to develop and deploy web & mobile applications

Environment : Crystallize, React, React Native, Node.js, Next.js, git, Webpack, Typescript, Graphql, Sentry, Vercel, Android Studio, XCode, Figma, Jira, Asana, Jest
